TechToons — Business Model Canvas

Market: KE Kenya (East Africa) **Date:** February 23, 2026 **Version:** 1.1

🤝 Key Partners

- **Kenyan freelance illustrators** — SVG illustration pipeline (Brighter Monday, Upwork Kenya)
- **Kenya Institute of Curriculum Development (KICD)** — CBC alignment & endorsement
- **Safaricom** — M-Pesa Daraja API integration; potential Safaricom Foundation sponsorship
- **Kenya Education Network (KENET)** — Distribution to schools
- **Local STEM orgs** — iHub, Moringa School, AkiraChix for community reach
- **Data protection counsel** — Kenya DPA 2019 compliance

🔑 Key Activities

- Designing & producing new tech-themed SVG coloring pages (including future Kenya-specific content)
- Developing and maintaining the web + Android platform
- Curating age-appropriate STEM learning content aligned with CBC Digital Literacy strand
- User acquisition through WhatsApp groups, school partnerships, and social media
- Ensuring Kenya DPA 2019 compliance and child safety

🏗️ Key Resources

- React/TypeScript web application (existing v0.2 prototype)
- Library of 6 SVG coloring pages (expandable)
- Design system (Fredoka + Nunito, teal/coral palette)
- Brand identity: "TechToons" — kid-friendly, STEM-forward
- Engineering team (full-stack + mobile)
- Content team (illustrators, education writer)

💡 Value Propositions

For Kids

> *"Color robots, rockets, and circuits — and learn how they work!"*

- Fun, intuitive coloring experience on any device
- Earn badges and stickers for completing pages
- Learn cool tech facts while creating art

For Kenyan Parents

> *"Creative screen time that actually teaches your child about technology — for KES 250/mo."*

- No ads, no data tracking on child accounts
- Parent dashboard with engagement & learning progress
- Pay easily with M-Pesa — no foreign card needed

For Kenyan Educators

> *"CBC meets creativity — bring Digital Literacy to life in your classroom."*

- CBC-aligned coloring activities (Digital Literacy strand)
- Class management & progress reports
- Web-based: works on Chromebooks and shared school tablets
- Printable worksheets for device-free sessions

👫 Customer Segments

SEGMENT	SIZE (ADDRESSABLE)	REVENUE POTENTIAL
Kenyan parents (kids 4–10)	~5M households	Primary — Plus subscriptions (KES 250/mo)
CBC teachers (Grade 1–5)	~300K	Secondary — Classroom subscriptions (KES 500/mo)
East Africa expansion (Uganda, Tanzania, Rwanda)	~15M households	Growth — localized content
Kenyan STEM orgs & corporates	Dozens	Ancillary — branded/sponsored content

📣 Channels

1. **Google Play Store** — Android (95%+ market share in Kenya); Family category
2. **WhatsApp groups** — Primary parent community channel in Kenya
3. **School partnerships** — Direct outreach to CBC-implementing schools
4. **Social media** — TikTok/Instagram Reels, Facebook parenting groups
5. **Safaricom ecosystem** — M-Pesa Mini-Apps, Safaricom app store
6. **Education orgs** — KICD, KENET, UNESCO Nairobi
7. **Organic search** — SEO for "CBC digital literacy games Kenya", "kids STEM activities"

💰 Revenue Streams

STREAM	PRICE	MODEL
TechToons Plus	KES 250/mo or KES 2,500/yr (~$19.50)	Family subscription via M-Pesa
TechToons Classroom	KES 500/mo or KES 5,000/yr (~$39)	School subscription
NGO/Govt Sponsorships	KES 500K–1.5M per deal	Safaricom Foundation, USAID, World Bank EdTech
Branded Content Packs	KES 200K–1M per partnership	Corporate sponsorship (Safaricom, Equity Bank)

Year 1 projected revenue: KES 7.3M (~$56,700)

🏷️ Cost Structure

📋 **Note:** Detailed pricing and cost breakdown will be costed in collaboration with our software development partner. Key cost categories include:

CATEGORY	NOTES
Engineering	Full-stack + mobile development team
Content Creation	Illustrators + educational content writers
Infrastructure	Hosting, database, CDN
Marketing	Social media, school outreach, community building
Legal / Compliance	DPA 2019 counsel
Payment Processing	M-Pesa Daraja API + Stripe fees

🌊 Customer Relationships

- **Self-service** — Web/mobile sign-up with guided onboarding
- **WhatsApp support** — Primary support channel (WhatsApp Business API)
- **Automated** — Weekly parent email/SMS summaries, streak reminders
- **Community** — Moderated gallery where kids share artwork
- **Education** — Dedicated school onboarding, teacher training workshops

🏆 Unfair Advantages

1. **First mover** in creative STEM coloring for Kenyan/East African kids
2. **Web-first** — no install required; instant access on low-end devices and school Chromebooks
3. **M-Pesa native** — frictionless payment for 90%+ of Kenyan households
4. **CBC-aligned** — positioned as a Digital Literacy curriculum supplement
5. **Affordable** — KES 250/mo undercuts all global competitors
6. **Export capability** — kids can download and share art via WhatsApp (competitors can't)
7. **Low-bandwidth optimized** — lightweight SVGs (~7KB) work even on 3G connections
